EXPERIENCE:

Product Manager: *M2P Fintech* | Bangalore Feb'25 - Present

(Lending infrastructure platform powering credit and loan origination for Banks and NBFCs)

- **Product Delivery & Innovation:** Shipped 50+ features across lending platform V2 with zero operational disruption; managed sprint planning, grooming, and test case reviews to maintain shipping velocity
- **Built new product category:** Transitioned lending portfolio beyond traditional JLG models by architecting individual microloan framework, expanding addressable user segments
- **AI Integration:** Built AI document analysis agent for MSME credit assessment using Python and LLM API consolidating BSA, GSTR, and ITR review into a single pipeline, replacing 3 separate manual workflows
- **Led platform migration:** Migrated LOS data V1→V2 at 100% accuracy through comprehensive testing protocols and engineering collaboration

Associate Product Manager: *LXME Financial Services* | Mumbai May'24 - Dec'24

(Capital markets investing platform enabling women to invest in mutual funds and other market-linked instruments)

- **Consumer Retention & Engagement:** Cut late-stage funnel abandonment from 81% to 32% via systematic friction analysis and hypothesis-driven UX redesigns across 7 onboarding screens
- **App stability:** Cut crash rate from 7.0% to 1.7% by root-causing 200+ crash logs; D1 retention up 5.3 pp
- **Launched 0-1 consumer product:** Shipped Prepaid Payment Instruments (PPI) digital wallet for 50,000+ active users, validating core hypotheses around investment journey friction through pilot testing and iterative refinements
- **Market expansion experiment:** Launched LXME Lite, a business correspondent (BC) assisted model for Tier 2, 3 users; grew the user base 40% and validated BC as a distribution channel
- **User Research & Insights:** Analyzed 500+ app store reviews, user feedback tickets, and support conversations to uncover emotional barriers in wealth management adoption for women; translated those insights into shipped features

Product Management Trainee: *CAMSfinerv Account Aggregator* | Chennai Apr'23 - May'24

(Account Aggregator platform enabling consented financial data-sharing as part of India Stack's open finance ecosystem)

- **Improved merchant activation by 32%:** Revamped onboarding journey to 78% platform efficiency through data-backed friction analysis and UX hypothesis testing
- **Scaled enterprise adoption by 50%:** Expanded platform utility for marquee clients (Shubham Housing, Mahindra Finance, IND Money) by identifying high-value use cases
- **40% Faster Loan Processing:** Accelerated LAS entity evaluation by engineering an automated, verified data-driven credit decisioning framework
- **95% CSAT Achieved:** Built real-time insights and API performance dashboards that automated resolution for 100+ monthly client queries, drastically cutting turnaround times

PERSONAL PROJECT:

DPDP Compliance Journey Analyzer

- Ingests a screen recording of an app's onboarding flow and flags PII exposure against DPDP requirements, using an open-source LLM (Llama) with PaddleOCR and Tesseract. Validated across 25+ onboarding journeys

AWARDS AND RECOGNITION:

- Winner Sahamati(RBI)BuildAAthon 2024 Built Automated Nominee Tracker using AA framework and open-source LLM
- Employee of the Month, M2P Fintech (Apr'26) | Recognized for contributions to the MFI Products suite and Kotak Mahindra Bank partnership project

EDUCATION:

Degree	University	CGPA	Year of passing
M.B.A. - Operations and Marketing	ISSM Business School	7.8	2023
B.E. - Electronics and Communication	Saveetha Engineering College	7.4	2021

TECH STACK & COMPETENCIES:

Technical: Python, SQL, Claude Code, Hugging Face, Lovable, Vercel, GitHub

Product & domain: Mixpanel, Amplitude, Appsflyer, MoEngage, DevRev, LOS, Account Aggregator, KYC, PPI, credit underwriting
